

ABCs of Economics

Due

We all read alphabet books when we were children; however, creating our own ABC book in economics (A4 posters actually) is no child's play. This provides one way to review and check for understanding some of the material you need to know for May.

Task

Create an "ABC" poster using terms/concepts or theories for the letter of the alphabet you chose. For example, if you select A, then you could create a poster on Aggregate Demand. You should...

- ✓ define it,
- ✓ explain it
- ✓ analyze it
- ✓ diagram it (if applicable)
- ✓ put it into context with a real world example.
- ✓ make sure it's colorful (child-friendly for a high school economics student)
- ✓ make sure the poster is vertical, not horizontal

Your BEAUTIFUL artwork will be posted, so please make sure it's presentable. Make your parents proud. This assignment is worth a quiz mark, so please be sure you invest 100% effort into this.

Rubric

| | Definition | Application | Analysis | Creativity | Mechanics | Presentation | Total |
|----------------------------------------------------------------------------------------------|------------------------------------|-------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|----------------------------------------------------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------|-------|
| | Defined/ explained precisely | Correct application of appropriate theory; supported by diagrams and examples | Relevant concepts clearly developed in reasonable depth, and demonstrating effective evaluation | Demonstrates careful thought and initiative; contains original ideas in design and structure of the poster | Sentence construction sophisticated and varied; flawless spelling and punctuation; rich economic vocabulary | Neatly typed or written; graphics well drawn and attractive; colorful to the eye | |
| Superior (4) Proficient (3) Adequate (2) Beneath Standards (1) Not Scoreable (0) | | | | | | | /24 |
